

Tokenomics

AMBO-Pipeline Ltd (AMBO-Pipeline) aims to provide a first-of-its-kind blockchain project that is backed up by a fundamentally sound business in the oil industry.

AMBO-Pipeline will be the first oil pipeline to be fundraised through cryptocurrency and begin building a path forward for the traditional business industries to explore blockchain and cryptocurrency.

 = We are here

 = Completed

AMBO-Pipeline's building phase will span approximately 36 months, which includes the 12month environmental study.

For taking part in AMBO-Pipeline, we will issue an interest-bearing NFT. During the construction phase, AMBO-Pipeline will be paying 20% APR in interest in return for the first \$50M of funds raised.

Each AMBO-Pipeline token is privately bought back at \$1 - the interest will be paid in AMBO-Pipeline tokens during the construction phase. Upon commencement of operations, AMBO-Pipeline will buy back the \$AMBO tokens at \$1 through a private marketplace. AMBO-Pipeline will continue to pay interest after operations begin and the business is generating profits. The goal is to gauge the interest of how well the blockchain receives such business, and it will lay

down the footwork for our 2 future oil pipelines to be fully hosted on the blockchain with ownership – this will be pending legal advice and review to make sure we abide by regulation and standards of operation.

NFT Tiers

Level 1- \$250
Level 2- \$500
Level 3- \$1,000
Level 4- \$5,000
Level 5- \$10,000
Level 6- \$50,000
Level 7- \$100,000
Elite - \$250,000**

We have created a range of prices to ensure the inclusion of all portfolio sizes.

****Elite NFT** purchasers will have an open line of communication with AMBO-Pipeline Ltd and be able to access funding for development and new ventures.

NFT BENEFITS:

- 6-month payback period of your initial mint price
- 25% BONUS ROI on top of the 100% payback
- PLUS 5% for every million raised through NFTs, cap at \$5M/150% ROI in 6 months
- 20% interest APR

NFT Mint example

1. \$10,000 invested
2. Receive a level 5 NFT
3. Accrue 12,500 \$AMBO tokens after 6 months
4. Interest yields 2,000 \$AMBO tokens per year for a level 5 NFT.
5. 3 years interest @ 20% per year = 6,000 \$AMBO token
6. Total Tokens after 36months = 18,500 \$AMBO (12,500 + 6,000)
7. Add 500 \$AMBO tokens for every million raised by NFTs minted.
8. \$AMBO token holders will have access to our private marketplace where they can redeem \$AMBO for stablecoins at a 1:1 swap ratio.

AMBO-Pipeline LTD is forecasting 900,000 oil barrels transported per day at the cost of \$2-\$2.50 per barrel. The projection is \$1.8M USD per day and \$600-\$800M annually.

***“If you can’t own the Oil Well,
the next best profitable part
is to own the Pipeline”***
